* Action item
Notice to the Public Regarding Title VI of the Civil Rights Act of 1964

WCOG hereby gives public notice that it is the policy of the agency to assure full compliance with Title VI of the Civil Rights Act of 1964, the Civil Rights Restoration Act of 1987, Executive Order 12898 on Environmental Justice, Executive Order 13166 on Limited English Proficiency, and related statutes and regulations in all programs and activities. Title VI requires that no person in the United States of America shall, on the grounds of race, color, sex, or national origin, be excluded from the participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program or activity for which WCOG receives federal financial assistance.

Any person who believes they have been aggrieved by an unlawful discriminatory practice under Title VI has a right to file a formal complaint with WCOG. Any such complaint must be in writing and filed with the WCOG Title VI Coordinator within one-hundred eighty (180) days following the date of the alleged discriminatory occurrence. Title VI Discrimination Complaint Forms may be obtained from the WCOG at no cost and are available on WCOG’s website.

Aviso al Público Sobre Título VI de la Ley de Derechos Civiles de 1964

Por medio de la presente, el WCOG notifica de manera pública que la política del organismo es garantizar el pleno cumplimiento del Título VI de la Ley de Derechos Civiles de 1964, la Ley de Restauración de Derechos Civiles de 1987, el Decreto Ejecutivo 12898 sobre Justicia Ambiental, el Decreto Ejecutivo 13166 sobre el Dominio Limitado del Idioma Inglés, así como los estatutos y reglamentos relacionados en todos los programas y actividades. De acuerdo con lo estipulado en el Título VI, ningún individuo de los Estados Unidos de América deberá, con fundamento en su raza, color, sexo o nacionalidad, ser excluido de participar en, que se le nieguen los beneficios de, o ser víctima de discriminación en virtud de cualquier programa o actividad por el cual el WCOG reciba fondos federales.

Toda persona que se considere agraviada por una práctica discriminatoria e ilícita en virtud del Título VI tiene derecho a presentar una denuncia formal ante el WCOG. Cualquier denuncia de este tipo debe presentarse por escrito ante el coordinador del Título VI del WCOG dentro de un plazo de 180 días naturales a partir de la fecha de la presunta discriminación. El WCOG pone a disposición del público los formularios de denuncia del Título VI de manera gratuita en su página web.
IN ATTENDANCE:

MEMBERS VOTING: Scott Korthuis (1st Vice-Chairman), Lynden; Jack Louws (2nd Vice-Chairman) and Satpal Sidhu, Whatcom County; Terry Bornemann, Bellingham; Bonnie Onyon, Blaine; John Perry, Everson; Tom Jones, Nooksack; Jay Drye, WSDOT; Michael Lilliquist, WTA; NON-VOTING: Chris Comeau, CTAG; Jeff McClure, PUD No. 1; Rep. Luanne Van Werven, 42nd District

GUESTS Larry Brown, Sudden Valley Association; Ted Carlson, City of Bellingham; Todd Carlson and Gabe Ng, WSDOT; Peter Frye, Lummi Nation; Lynne Lohr, Bellingham resident; Ellen Murphy, Bellingham resident; Guy Occhiogrosso, Bellingham Regional Chamber of Commerce; Pete Stark, WTA

STAFF Bob Wilson (Secretary), Rob Cubellis, Hugh Conroy, Lethal Coe

A. CALL TO ORDER

Acting Chairman Korthuis called the meeting to order at 3:33 p.m. with a quorum present.

B. PUBLIC COMMENT

Ms. Lohr and Ms. Murphy each expressed their concerns about the impact of radiation generated by cell phone use on buses, citing certain other publicly-expressed opinions on the subject. Ms. Lohr also cited Geiger counter readings she had taken while riding on WTA fixed-route and paratransit buses.

C. AGENDA APPROVAL

MOTION: Mr. Louws moved, Mr. Bornemann seconded, to approve the agenda.

MOTION PASSED

D. APPROVAL OF MINUTES OF MAY 8, 2019

MOTION: Mr. Louws moved, Mr. Bornemann seconded, to approve the minutes of the meeting of May 8, 2019.

MOTION PASSED

E. OLD BUSINESS

No old business was discussed.
F.  PUBLIC HEARING

Amending the 2019 WCOG Transportation Improvement Program (TIP)

Mr. Coe distributed to the representatives a revised memo to replace that which was included in the meeting packet, and then described the proposed amendment to the 2019 TIP:

1. Remove Bellingham project Cordata Safe Routes to School Program that obligated in November, 2018.
2. Remove WSDOT project State Route 9/Acme Vicinity to Mt. Baker Highway Vicinity – Weigh-in-Motion Enforcement Area. This project has been delayed until the 2025-27 biennium.
3. Amend the Whatcom County Lummi Island Breakwater Replacement Project to add in the Preliminary Engineering (PE) phase and remove the Construction phase. The PE phase will utilize federal Ferry Boat Program (FBP) funds in the total amount of $100,000. The Construction phase will be added back into the TIP at a future date.
4. Add new Whatcom County Lummi Island Terminal Preservation Project to paint and strengthen the transfer span and towers at the Lummi Island Ferry Terminal. This project is funded through the FBP for a total cost of $820,000 and will begin in 2019.
5. Revise the TIP to add “Transportation Performance Management” language pertaining to the Pavement and Bridge and System Performance and Freight sections of the document to comply with the federally-required “Performance-Based Planning and Programming” rules.

Mr. Coe then answered questions posed by the representatives.

PUBLIC HEARING OPENED AT 3:44 P.M.

No comments were offered.

PUBLIC HEARING CLOSED AT 3:44 P.M. BY UNANIMOUS CONSENT

MOTION: Mr. Louws moved, Mr. Bornemann seconded, to approve Amendment No. 1907 to the 2019 WCOG Transportation Improvement Program.

MOTION PASSED

G.  NEW BUSINESS

1. Surface Transportation Block Grant (STBG) Program Awards

Mr. Coe went through the memo included in the meeting packet and then answered questions posed by the representatives.
MOTION: Mr. Louws moved, Mr. Bornemann seconded, to approve the allocation of Federal Fiscal Years 2023 and 2024 regional STBG and Transportation Alternatives program funds as recommended by the Transportation Technical Advisory Group.

MOTION PASSED (Mr. Lilliquist abstained)

2. WSDOT Projects Update

Mr. Ng briefed the Policy Board on the status of several WSDOT projects.

H. OBLIGATION STATUS UPDATE

Mr. Coe stated that there was no change in the region’s obligation status since the last Policy Board meeting.

I. PLANNING DIRECTOR’S REPORT

Mr. Conroy briefed the Board on current and upcoming transportation planning activities.

J. CORRESPONDENCE

Mr. Wilson directed the representatives’ attention to a letter that was included in the meeting packet.

K. BOARD OPEN FORUM

Ms. Onyon mentioned the recommendation of All Aboard Washington – a passenger-rail advocacy group – for an Amtrak stop in Blaine.

L. ADJOURNMENT

There being no further business, the meeting adjourned at 4:28 p.m.

MEMO

To: Whatcom Transportation Policy Board
From: Lethal Coe, Senior Planner
Date: September 30, 2019
Subject: WCOG 2019 TIP Amendments and Administrative Modifications

Amendment 5 (1910) of the 2019 WCOG Transportation Improvement Program (TIP) includes the following:

1. Amend WSDOT project I-5/SB Lake Samish Vic – Stormwater Retrofit to reduce preliminary engineering (PE) and construction (CN) phase funding amounts due to scope change and revise beginning and ending termini. The project is funded through the National Highway Performance Program (NHPP).

2. Amend WSDOT project SR 11/Hoag’s Creek – Fish Passage to adjust PE phase add right-of-way and CN phases. The project is funded through the WA Connecting Washington Account (CWA).

3. Add new WSDOT project SR 546/Pepin Creek – Fish Passage that is funded through the WA CWA.

Formal TIP Amendments require review and resolution from the Policy Board to amend the current TIP and make federal funding accessible.

REQUESTED MOTION: Approve Amendment 5 for the Whatcom Council of Governments 2019 Transportation Improvement Program.

MEMO

To: Whatcom Transportation Policy Board
From: Lethal Coe, Senior Planner
Date: October 2, 2019
Subject: WCOG 2020 TIP Adoption

Each year WCOG prepares and manages the region’s Transportation Improvement Program (TIP) to meet the 4-year federal requirement as the Metropolitan Planning Organization and 6-year state requirement as the Regional Transportation Planning Organization.

The **WCOG 2020-2025 TIP** enclosed with this packet is a draft pending your approval. It has been prepared using member city, county, transit and state six-year programs. The TIP includes projects funded through federal transportation programs and statewide transportation programs that impact the regional significant system (can be found at https://whatcommobility.org/) as well as includes projects from recently awarded WCOG-managed Surface Transportation Block Grant program (STBG) and Transportation Alternatives program (TA). The 2020 TIP contains 41 securely funded projects with a combined total of over $129 million dollars.

Formal adoption of the regional TIP requires a public hearing scheduled to take place at the October 9th Policy Board meeting. The public hearing advertisement has been posted in the WCOG newspaper of record (Bellingham Herald). I will be present to answer any questions about the WCOG 2020 TIP draft.

Please review the attached draft WCOG 2020 TIP draft.

**SUGGESTED MOTION:** “Approve the WCOG 2020 Transportation Improvement Program.”
Regional Goals and Performance Measures

Regional projects in the WCOG TIP were developed and prioritized towards achieving regional goals and links our region’s transportation investments to federal performance measures (23 CFR 450.326).

Prepared by the Whatcom Council of Governments using funds contributed by member jurisdictions and grants from the Washington State Department of Transportation, the U.S. Department of Transportation Federal Highways and the Federal Transit Administration.

Information provided in this Transportation Improvement Program (TIP) is gathered from member jurisdictions and is used to represent the region’s projects in the Statewide Transportation Improvement Program (STIP). Qualifying transportation projects for the Whatcom County region include both MPO and non-MPO areas. This document also contains annual certifications required by federal law.

Opened in 2019, Everson’s Lincoln St was reconstructed from Everson Rd to Washington St and extended the roadway construction from Washington St to Blair Rd.
IN THE MATTER OF ADOPTION OF THE
2020 WHATCOM COUNCIL OF GOVERNMENTS
TRANSPORTATION IMPROVEMENT PROGRAM Resolution #2019-10-1

WHEREAS, the Whatcom Council of Governments' Whatcom Transportation Policy Board, hereinafter referred to as the POLICY BOARD, is the Metropolitan Planning Organization (MPO) for the Bellingham-Ferndale urbanized area; and

WHEREAS, the POLICY BOARD, is the Regional Transportation Planning Organization (RTPO) for Whatcom County; and

Whereas, the POLICY BOARD, as the MPO and RTPO has the responsibility of annually developing, adopting and amending a Transportation Improvement Program (TIP); and

WHEREAS, transportation improvement projects must be included in the TIP to be eligible for federal assistance under Federal Highway Administration and Federal Transit Administration funding programs; and

WHEREAS, the POLICY BOARD certifies that all requirements of 23 U.S.C. Section 134 Transportation Planning are met; and

WHEREAS, the POLICY BOARD certifies that the TIP meets all Federal and State air quality requirements; and

NOW, THEREFORE, BE IT RESOLVED BY THE WHATCOM TRANSPORTATION POLICY BOARD:

That it approves the scope and content of the 2020 Transportation Improvement Program, with the understanding that minor changes may be required after federal review, for submission to the Washington State Department of Transportation, Federal Highway Administration and Federal Transit Administration.

ADOPTED:

Past Project - Lummi Transit Bus Shelters

Funded in part by regional Transportation Alternative Program, this project reconstructed bus shelters in Lummi Nation to improve transit infrastructure.
Whatcom Regional Transportation Planning Organization (RTPO) Boundary
INTRODUCTION

Background

The Whatcom Council of Governments (WCOG) was established in 1966 as a 16-member intergovernmental agency. Members of the WCOG represent the general-purpose local and special district governments in Whatcom County. The existing WCOG structure was formed under R.C.W. 36.70.060, which authorized creation of regional planning councils.

The principal mission of the WCOG is to provide a forum for the exchange of information and data on a regional basis. To accomplish this mission, WCOG provides local jurisdictions with technical support and coordination in transportation, and census data information services. This report was prepared as part of the WCOG 2020 Unified Planning Work Program (UPWP).

Metropolitan Planning Area

Following the 1980 Census, the City of Bellingham and the surrounding metropolitan area was designated as an "urbanized area," with a population over 50,000. In 1981, WCOG was designated as the area's Metropolitan Planning Organization (MPO). This designation makes additional federal transportation funds available for transit and road improvements and transportation planning.

In 1993, WCOG revised the Whatcom County Metropolitan Planning Area boundaries to reflect the requirements of the Intermodal Surface Transportation Efficiency Act. The metropolitan planning area includes the cities of Bellingham and Ferndale, the unincorporated area of Whatcom County known as Sudden Valley, and portions of the unincorporated county north of Bellingham and Ferndale (Figure 1). WCOG is annually recertified as the Whatcom County MPO.

In 2013, the Whatcom Transportation Policy Board, with concurrence from the Governor, expanded the Metropolitan Planning Area boundary to encompass the populated areas of Whatcom County with a couple exceptions. The Lummi Nation reservation, the Nooksack Tribe trust lands and the portion of State Highway 20 east of Mount Baker are excluded from the boundary.

Regional Transportation Planning Organization

On September 20, 1990 the WCOG was designated by the governor as the Regional Transportation Planning Organization (RTPO) for Whatcom County. In 1990-1991, the RTPO Policy Board was established from the membership of the WCOG Full Council. Each member jurisdiction in the WCOG agreed to the RTPO acting as the designated project selection body for Regional Surface Transportation Program funds and Transportation Alternative Program funds. The region encompasses all of Whatcom County.
**Purpose and Scope of the Transportation Improvement Program**

WCOG is required by Federal and State regulations to develop a Transportation Improvement Program (TIP); it must be updated every four years, or more frequently. The TIP is the financial plan that identifies and prioritizes federally funded transportation projects to be carried out in the Whatcom County Metropolitan Planning Area. Projects including Federal funds must appear in the WCOG TIP. Projects in the WCOG TIP are approved by the WCOG Whatcom Transportation Policy Board, Governor, Federal Highway Administration (FHWA), and Federal Transit Administration (FTA). The projects are then included in the Statewide Transportation Improvement Program (STIP). While the TIP is a six-year document, the primary focus is on the first four years: 2020 - 2023. All projects in WCOG TIP were developed through a scoring process that aligns points with the regional goals outlined in *Whatcom Mobility 2040*.

WCOG's annual TIP aids in the coordination and cooperation of transportation planning in the region. The TIP also provides the public, elected officials, state and local staffs, transit providers, and other interested parties the opportunity to review regional projects for consistency with regional goals and policies.

**TIP Legislative Requirements**

The Whatcom Council of Governments’ TIP has been developed in response to two pieces of legislation:

1. Public Law 114-357 Fixing America's Surface Transportation Act (FAST Act)
2. Revised Code of Washington, Title 47, Chapter 47.80.

FAST Act requires Metropolitan Planning Organizations to prepare a TIP detailing those projects within the Metropolitan Area Boundary that will utilize federal transportation funds or are considered *regionally significant*. The Washington State RTPO law requires Regional Transportation Planning Organizations to prepare a TIP in cooperation with Washington State Department of Transportation (WSDOT) that similarly details all projects in Whatcom County that will utilize federal funds or are considered regionally significant. The WCOG TIP reflects both metropolitan projects and non-Metropolitan projects (those outside the adopted Metropolitan area boundary) separately in the project tables.

FAST Act focuses on the first four years of the traditional six-year project lists and required fiscal constraint (projects prioritized in the first four years of the TIP are required to show secured funding sources). Projects in the TIP are prioritized on an annual basis as the following;

1. 2020 projects are priority one,
2. 2021 projects are priority two
3. 2022 projects are priority three
4. 2023 projects are priority four

Projects that have not secured funding are shown in the unfunded table.
TIP DEVELOPMENT PROCESS

MPO and RTPO Roles in TIP Development

The metropolitan planning requirements of FAST Act have advanced the role of the MPO in developing the regional Transportation Improvement programs (TIP). As the MPO, WCOG applies a continuous and comprehensive planning process in cooperation with WSDOT and member jurisdictions in the development of the combined Regional and Metropolitan Transportation Plan (MTP) and the combined Regional and Metropolitan TIP. The MPO TIP reflects "the investment priorities established in the current transportation plan". As the MPO, and in cooperation with local and state jurisdictions, WCOG prioritizes proposed federally funded projects according to their significance and consistency with Whatcom Mobility 2040. (23 CFR 450.326)

Under the Washington Growth Management Act (RCW 36.70A.020), the transportation planning requires the "encouragement of efficient multimodal transportation systems that are based on regional priorities and coordinated with county and city comprehensive plans." WCOG assumed the RTPO role to achieve regional objectives. RTPOs are required to certify that the transportation chapters of jurisdiction’s GMA comprehensive plans are consistent with regional transportation plan. Regional transportation improvement programs are required to be consistent with the regional transportation plans. (WAC 468-86-160)

TIP Development Stages

Whatcom Council of Governments initiates the development of the TIP in July of each year when local jurisdictions and agencies provide copies of their respective TIPs to WCOG. The Washington State Department of Transportation and the Whatcom Transportation Authority also submit their projects to WCOG for inclusion in the WCOG TIP.

The TIP submissions are compiled into a comprehensive document for the metropolitan and non-MPO areas of Whatcom County. Review and refinement occurs continuously throughout the process to arrive at a program of improvements that are both consistent with the regional transportation plan and financially feasible. Stages of the development process include:

1. Preparation and submission to WSDOT of local six-year programs.
2. Submission of six-year road programs to MPO/RTPO (WCOG).
3. Project review and prioritization by WCOG ensuring that:
   a. All projects scheduled for federal funding are included in the TIP.
   b. All projects are fiscally constrained by showing a four-year implementation schedule and funding source by program.
   c. The TIP was developed in cooperation with the State.
   d. The public and interested parties were afforded an opportunity to comment on the TIP in accordance with the WCOG Public Participation Policy.
e. The TIP is consistent with Whatcom Mobility 2040.
f. The TIP provides for the development of an intermodal transportation system that considers all modes of transportation.
g. TIP projects are consistent with Title VI of the Civil Rights Act.
h. The TIP includes FTA Title VI Assurances.

4. WCOG will adopt and submit the regional TIP to WSDOT by November 1st.
5. Final review of the WCOG TIP will be completed by WSDOT with final project selection incorporated into the STIP for the Washington State Governor’s approval.
6. The STIP is submitted to the Federal Highway Administration and the Federal Transit Administration.
7. After the STIP is approved by the Federal Highway Administration and Federal Transit Administration, the local jurisdiction or agency may proceed with project funding obligation through local agency agreements with WSDOT.

Public Involvement

WCOG’s adopted public participation policy includes a requirement for a public notice and availability of draft documents 14 days in advance of a public hearing or meeting where documents will be reviewed or approved. A public notice was published in the Bellingham Herald on September 22, 2019 for the WCOG MPO/RTPO public hearing on October 9, 2019. A copy of the public notice is available at the WCOG.

Additionally, jurisdictions and agencies that submitted projects for inclusion in the regional TIP undertook their own public participation processes that included formal transportation program adoptions through their respective council or board meetings.

Significant comments: WCOG certifies that citizens and interested parties have been provided early and reasonable opportunity to comment on the proposed TIP as required under FAST Act Section 5303 (j)(1) and WCOG’s Public Participation Policy.

Additional Information

The WCOG TIP covers six years from 2020 - 2025. The first four years from 2020 - 2023 of the TIP are fiscally constrained and programmed in the STIP.

All federally funded projects in the MPA boundary and in the RTPO region have been included in the TIP. Federal funding for the projects does not exceed the amounts reasonably anticipated to be available to each jurisdiction.
The TIP was developed in cooperation with the local jurisdictions and agencies and WSDOT.
Multimodal Approach

Projects listed in the 2020 TIP were developed from a multimodal approach that includes consideration for nonautomotive single-occupancy modes, commonly referred as alternative modes. Alternative modes include bicycle, pedestrian, ride-sharing and transit. The multi-modal transportation system approach is a specified regional goal.

For transit services, Whatcom Transportation Authority provides fixed route and paratransit bus service in Whatcom County.

TIP Amendment Process

Federal requirements stipulate that changes to the TIP require an amendment to the original document, which then triggers an amendment to the STIP. This is important because a jurisdiction cannot proceed with a project for which it has been awarded federal money until the TIP and STIP is formally amended and approved by the federal agencies, even though the jurisdiction has been awarded money for the project.

The formal amendment process may take three to four months to complete and proceed through the following steps:

- Submittal of TIP amendment request from official project or program manager
- Public notice and comment opportunity for the proposed amendment
- Review and adoption of proposed amendment from Whatcom Transportation Policy Board
- Submit TIP amendment to WSDOT to request STIP amendment
- WSDOT submittal of amendment request to FHWA or FTA for authorization
- Authorization by federal agencies for local jurisdiction to proceed with amended project or program

Depending upon the kind of change required of the project or program, an amendment may not be necessary, but rather a more streamlined administrative modification or a simple corrective change that does not require STIP correction. All changes are initiated by the respective project or program manager with coordination with WCOG and WSDOT. The following outline the criteria that distinguishes the formal amendment, administrative modification, and simple STIP correction.

1. A formal amendment is triggered by the following conditions
   a. Adding a new project
   b. Removing (deleting) a project
   c. Changes to a project’s current total STIP programmed amount by more than 30% (or any amount greater than $3 million).
   d. Major project scope changes
   e. Adding a future phase
   f. Adding federal funds to a project currently programmed in the TIP/STIP that does not have federal funds (federalizing a project).
2. Administrative modifications – does not require Whatcom Transportation Policy Board approval and are updated monthly by WSDOT, thus total process time typically reduced to under two months.
   a. Revision to lead agency
   b. Adding prior phase not previously authorized
   c. Changes to a project’s current total STIP programmed funding amount by less than 30% (or any amount less than $3 million).
   d. Minor changes or errors in project information

3. Updates not requiring STIP change – the local agency, WCOG and WSDOT will coordinate to verify no STIP action is necessary.
   a. Moving a project within the four years of the STIP.
   b. Changes to federal funding source
   c. Federal funding authorized for current programmed projects in the STIP without consideration for phase split
   d. All adjustments in a project’s funding authorization for award of a contract

SPECIAL REGIONAL CONSIDERATION AREAS

Congestion Management

WCOG is not a Transportation Management Area (TMA) that serves an urbanized area greater than 200,000. TMA provisions of FAST Act planning requirements are not applicable to the WCOG MPO or RTPO.

Air Quality

WCOG is not an air quality non-attainment area. Air quality requirements of FAST Act are not applicable to WCOG 2019 TIP.
PERFORMANCE MANAGEMENT

A significant feature of the Moving Ahead for Progress in the 21st Century Act of 2012, known as Map-21, is the requirement for states and metropolitan planning organizations to establish a performance management program. The performance management program was developed in collaboration with the Washington State Department of Transportation (WSDOT). The following national performance goal areas apply to Whatcom Council of Governments:

Highway Safety Improvement Program

23 USC 150 states that performance management provides a means to the most efficient investment of federal transportation funds by (1) focusing on national transportation goals, and (2) improving project decision making through performance-based planning and programming. The stated goal for Safety: to achieve a significant reduction in traffic fatalities and serious injuries on all public roads. Pursuant to these national goals, State Departments of Transportation (DOTs) are required by the federal Highway Safety Improvement Program regulations under 23 CFR 924 to set five performance targets. These five required performance targets use five year rolling averages for (1) number of fatalities, (2) rate of fatalities per 100 million VMT, (3) number of serious injuries, (4) rate of serious injuries per 100 million VMT, and (5) number of non-motorized fatalities and non-motorized serious injuries. These targets are required for all public roads regardless of ownership or functional class.

Metropolitan Planning Organizations (MPOs) are also required to establish the same five target areas with the state DOT for all public roads within 180 days of submittal of the state established targets. An MPO can agree to either support the State DOT targets or establish separate MPO numerical targets specific to the metropolitan planning area boundary.

On January 17, 2018, the WCOG Transportation Policy Board adopted the statewide Highway Safety Improvement Program (HSIP) targets as reported to the Federal Highway Administration (FHWA) in coordination with WSDOT and thus agrees to plan and program projects so that they contribute towards the accomplishment of that HSIP target.

Transit Asset Management

Whatcom Transportation Authority (WTA) is committed to operating a public transportation system that offers reliable, accessible, and convenient service with safe vehicles and facilities. Transit Asset Management (TAM) is an administrative management process that combines the components of investment (available funding), rehabilitation and replacement actions, and performance measures with the outcome of operating assets in the parameters of a State of Good Repair (SGR).
WTA is currently operating as an FTA-defined Tier II transit operator in compliance with (49 CFR §625.45 (b)(1). Tier II transit providers are those transit agencies that do not operate rail fixed-guideway public transportation systems and have either 100 or fewer vehicles in fixed-route revenue service during peak regular service, and have 100 or fewer vehicles in one non-fixed route mode service during peak regular service hours.

WTA’s has developed a TAM Plan to provide an outline of how it will assess, monitor, and report the physical condition of assets utilized in the operation of the public transportation system. WTA’s approach to achieving an SGR includes the strategic and systematic process of operating, maintaining, and improving physical assets, with a focus on both engineering and economic analysis based upon quality information. WTA will identify a structured sequence of maintenance, preservation, repair, rehabilitation, and replacement actions that will achieve and sustain a desired SGR over the life cycle of the assets for a minimal, practical cost.

**Pavement and Bridge Condition**

RCW 47.05 and the Washington State Department of Transportation’s (WSDOT’s) Highway System Plan set the direction for management of infrastructure condition in Washington State, which is to preserve pavements and bridges at lowest life cycle cost. The lowest life cycle strategy for any pavement or bridge is the strategy that maintains acceptable condition at the lowest annualized cost over the life of the asset. WSDOT has demonstrated this by taking a preservation first approach to pavement and bridge management over several decades.

Local agencies manage approximately 31% of the non-Interstate National Highway System (NHS) in Washington State. Using the Target Setting Framework, WSDOT worked with Metropolitan Planning Organizations (MPOs) to establish performance measures and communicate its pavement and bridge management practices, as well as what these practices mean in the context of the National Highway System (NHS). WSDOT has also communicated the annual average state facility needs for pavements and bridges within each MPO boundary. Further supporting asset performance and investments on the NHS, WSDOT Local Programs issued a call for projects specifically focused on asset management practices, for pavements on NHS roadways.

Washington MPOs & WSDOT have agreed to plan and program projects to work towards and achieve Washington pavement and bridge condition targets for infrastructure condition under 23 CFR 490. As required under 23 CFR 515, the specific strategies for pavement and bridge preservation are documented in WSDOT’s Transportation Asset Management Plan, certified by FHWA in May 2018.

**System Performance and Freight**

In 2018, Washington State Metropolitan Planning Organizations (MPOs) and the Washington State Department of Transportation (WSDOT) set, adopted, and reported to FHWA statewide
targets for the Highway System Performance and Freight. Washington State MPOs and WSDOT are working to improve the planning and programming process to more fully align funding decisions with performance targets.

In Washington State, many of the projects selected to address mobility are prioritized through the legislative process. For this reason, it is essential that WSDOT, MPOs, regional transportation planning organizations (RTPOs), and local agencies coordinate their transportation planning efforts to develop transportation priorities that contribute towards performance targets and can be shared with lawmakers.

One such way WSDOT and its partner MPOs and RTPOs are working to make performance-supporting projects and programs clear to the legislature is through the Plan Alignment Work Group. A major focus of the group is to increase the consistency between regional plans and WSDOT’s statewide plans, which includes sharing and collaboratively perfecting the data and information necessary to identify a comprehensive list of financial forecasts, maintenance needs, and project priorities related to the state system within MPOs and RTPOs.

Another way WSDOT and its partners are assessing performance and target achievement is through the Regional Integrated Transportation Information System (RITIS) data tool. The state’s financial participation makes this tool available for WSDOT and MPOs to use the system in evaluating regional targets and to assist in other decision making processes.

To guide freight investments and improve freight system performance in Washington, WSDOT developed the 2017 Washington State Freight Investment Plan by engaging various freight partners and stakeholders, including MPOs and RTPOs. The Freight Investment Plan identified freight priority projects and described how those priorities would be invested and funded through FFY 2016–2020 National Highway Freight Program (NHFP) funds. Those NHFP investments would be incorporated into STIP and TIPs contributing to improving statewide freight performance on National Highway Freight Network.

Over the coming years WSDOT and its partners will further align planning and programming with performance. All are committed to developing practical approaches to work towards our regional and statewide performance targets.
City of Ferndale completed the Church Rd widening and reconstruction project in 2019 that improved multimodal connectivity to neighborhood residences.
METROPOLITAN PLANNING ORGANIZATION SELF-CERTIFICATION
FOR THE FOLLOWING METROPOLITAN PLANNING AREA

In accordance with 23 CFR Part 450, §450.336, the Washington State Department of Transportation (WSDOT) and the Whatcom Council of Governments' Metropolitan Planning Organization (MPO) for the Whatcom County Metropolitan Planning Area (MPA), hereby certify that the metropolitan transportation planning process is being carried out in accordance with all applicable requirements including:

2. In nonattainment and maintenance areas, sections 174 and 176 (c) and (d) of the Clean Air Act, as amended (42 U.S.C. 7504, 7506 (c) and (d)) and 40 CFR part 93;
3. Title VI of the Civil Rights Act of 1964, as amended (42 U.S.C. 2000d-1) and 49 CFR part 21;
4. 49 U.S.C. 3332, prohibiting discrimination on the basis of race, color, creed, national origin, sex, or age in employment or business opportunity;
5. Section 1101 (b) of the FAST Act (Pub. L. 114-95) and 49 CFR part 26 regarding the involvement of disadvantaged business enterprises in DOT-funded projects;
6. 23 CFR Part 230, regarding the implementation of an equal employment opportunity program on Federal and Federal-aid highway construction contracts;
8. The Older Americans Act, as amended (42 U.S.C. 6101), prohibiting discrimination on the basis of age in programs or activities receiving Federal financial assistance;
9. Sections 324 of title 23 U.S.C. regarding the prohibition of discrimination based on gender; and

Past Project - Riverview Rd Gap Elimination

City of Lynden recently finished the new roadway construction of Riverview Rd that connects the S 6th St to Hannegan Rd.
CONSISTENCY WITH REGIONAL LONG-RANGE TRANSPORTATION PLAN

The projects contained in the 2019-2024 years of the TIP are consistent with the goals of Whatcom Mobility 2040. WCOG prepares the TIP based on input from local agencies and WSDOT, and all projects are considered for their consistency with Whatcom Mobility 2040.

Financial Plan

This TIP is based on, and therefore consistent with, the region’s Whatcom Transportation Plan (WTP) required under Title 23 CFR Part 450. Financial feasibility for the region is well-stated in that plan. Any questions regarding feasibility of any TIP project may be answered by referring to the WTP. The project expenditures are listed in year of expenditure amounts as determined by the individual agencies. A regional approach to determining year of expenditure amounts will be implemented when Federal Highway Administration and the Federal Transit Administration issue guidance on the matter.

Federal Funding Programs

FTA Section 5307 Urban Areas

FTA Section 5307 provides transit operators with predictable funding. Grants are allocated on a per capita basis to large urbanized areas. In small urban areas, the funding is distributed on a per capita basis, but the actual "schedule for release" is negotiated between WSDOT and the small transit operators. Section 5307 funds may be used for capital acquisition.

Bridge Replacement and Rehabilitation Program

The Bridge Replacement and Rehabilitation Program is used to fund improvements to bridges determined to be deficient because of structural problems, physical deterioration, or functional obsolescence. The program assists local governments replace or rehabilitate roadway bridges over waterways, topographical barriers, other roadways, railroads, canals, ferry landings, etc. Funding of projects in this program is on a competitive basis. All jurisdictions must inventory their bridges according to state procedures. A statewide priority listing is established based on the inventory. Bridge projects are evaluated and selected on a priority basis by a committee comprised of city, county and WSDOT representatives.

Coordinated Border Infrastructure

The CBI funding is used to improve the safe movement of motor vehicles at or across the land border between the U.S. and Canada and the land border between the U.S. and Mexico.
**Ferry Boat Program or Ferry Boat Discretionary (FBP)**

The Ferry Boat Program Program provides a special funding category for the construction of ferry boats and ferry terminal facilities.

**Highway Safety Improvement Program (HSIP)**

The overall purpose of the Highway Safety Improvement Program is to achieve a significant reduction in traffic fatalities and serious injuries on all public roads through the implementation of infrastructure-related highway safety improvements.

**Safe Routes to School (SRTS)**

The Safe Routes to School program was established to address the need for children to safely walk and bike to and from school. SRTS funds the development and improvement of facilities connecting neighborhoods to their respective schools, as well as educational and promotional programs to encourage children and parents to walk and bike. Since MAP-21 and current FAST Act, projects eligible for federal SRTS program funding can be pursued under Transportation Alternatives program and Highway Safety Improvement Program.

**National Highway Performance Program (NHPP)**

MAP-21 created the NHPP as a new category for federal transportation funding that incorporates Interstate Maintenance, the National Highway System (NHS) and the Highway Bridge Program for bridges that are on the NHS.

**Surface Transportation Program (STP) / Surface Transportation Block Grant (STBG)**

The FAST Act STBG replaces the SAFETEA-LU's STP grant program that is used on any road (including NHS routes) that is not classified as a local or minor rural collector on the Federal-Aid highway system. Note that projects programmed in the TIP and STIP still use the STP acronym. Bridge projects on any public road and transit capital projects are eligible to utilize STP funds.

**Transportation Alternatives (TA)**

Created by MAP-21, TA program (set-aside of Surface Transportation Block Grant program) funds transportation alternatives programs and projects including federally funded pedestrian and bicycle facilities, infrastructure projects for improving non-driver access to public transportation and improved mobility, community improvement activities, and environmental remediation; recreational trail projects; and safe routes to school projects.
### 2019 TIP projects not included in the 2020 TIP

The following projects existed in the 2019 TIP but are no longer programmed for the 2020 TIP for reasons that include: underway, complete, cancelled, delayed or on hold.

Total Projects Cost $65,756
Past Project - Jim Kaemingk Sr Trail Extension

Funded by Transportation Alternatives Program and Safe Routes to School, Lynden’s Jim Kaemingk Sr trail connects neighborhoods to the local elementary school through pathways and sidewalks.
The MPO section lists the projects within the metropolitan planning area (MPA), the non-MPO section lists the projects outside the MPA boundary, and the unfunded section lists the countywide, planned, regionally significant projects that do not have secure funding.

TIP PROJECTS AND FINANCIAL TABLES

The project and financial tables of the 2019 TIP are arranged in three tabs, MPO, non-MPO and Unfunded.

The MPO section includes the funding secured four-year Metropolitan projects with a Financial Feasibility report.

The non-MPO section includes the funding secured four-year non-MPO projects (outside the MPO boundary).

The Unfunded section includes the planned but not funding secured six-year MPO and non-MPO projects. The following abbreviations are used throughout the project tables:

**Federal Funding Program Abbreviation**

- **BR**: Bridge Replacement or Rehabilitation
- **CBI**: Coordinated Border Infrastructure
- **Discretionary**: Public Highway Lands, Scenic Byways, Others
- **FBP**: Ferry Boat Program
- **HSIP**: Highway Safety Improvement Program
- **IRR & TTP**: Indian Reservation Roads & Tribal Transportation Program
- **NHS**: National Highway System
- **NHPP**: National Highway Performance Program
- **SRTS**: Safe Routes to Schools
- **STBG (US)**: Surface Transportation Block Grant (replaced STP by FAST-Act) Urban Small Area
- **STBG (RU)**: Surface Transportation Block Grant (replaced STP by FAST-Act) Rural Area
- **STP**: Surface Transportation Program (acronym still used by WSDOT program)
- **STP (R)**: Surface Transportation Program Rural Area
- **STP (US)**: Surface Transportation Program Urban Small Area
- **TA**: Transportation Alternatives (replaced TAP by FAST-Act)
- **TAP**: Transportation Alternatives Program (acronym still used by WSDOT program)
- **TAP (R)**: TAP Rural
- **TAP (US)**: TAP Urban Small
- **TAP (SR)**: TAP Safe Routes to School
- **5307**: Federal Transit Administration – Urban Areas Grant
- **5339**: Federal Transit Administration – Buses and Bus Facilities Program

**State Funding Program Abbreviations**

- **CRAB**: County Road Administration Board
- **CWA**: Connecting Washington
- **FMSIB**: Freight Mobility Strategic Investment Board
- **TIB**: Transportation Improvement Board
- **OTHER**: Any other state fund codes
Regional Goals and Performance Measures

Projects in the WCOG TIP were developed and prioritized towards achieving regional goals that also links our region’s transportation investments to federal performance measures (23 CFR 450.326).
